Hasten, Myriad, Tepid, Consternation, Radical

1. Hasten (जल्दी करना) (Verb) (HAY-suhn) (Neutral/Urgent)

- **Meaning (English):** To move or act quickly; to accelerate something's progress.
- **Meaning (Hindi):** किसी चीज़ को तेज़ी से करना या बढ़ाना।
- **Origin Flowchart & Etymology:**
 - Middle English *hasten* → **Old French** *haste* → Latin *hastare* ("to hurry")
- **Synonym + Antonym:**
 - **Synonyms:** Accelerate, Rush, Expedite
 - **Antonyms:** Delay, Hinder, Slow
- **Connotation:** Neutral or Urgent (depends on context)
- **Pictorial Scenario:** A doctor hastening through a hospital corridor after an emergency call.

- **Use in Non-Fiction (in 100 words):**

In emergency protocols, the ability to hasten decisions without compromising accuracy can save lives. In corporate settings, CEOs often hasten strategic shifts when facing market disruption. While hastening can convey urgency, it must not bypass due

diligence. For instance, in software development, hastening product launches without thorough testing can backfire. However, in war zones or disaster relief, hastening responses is a necessity. Time-sensitive leadership hinges on the ability to distinguish when to hasten and when to pause.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  The government hastened the aid process after the earthquake. (सरकार ने भूकंप के बाद राहत प्रक्रिया को तेज़ कर दिया।)
-  He was hasten to go. (Incorrect verb form; should be “hastened”)

- **Word Hack of the Day (in 50 words):**

- Use “hasten” when urgency is key but control must be retained. Hasten isn't recklessness—it is focused speed. Whether it's launching a project or reacting to crisis, use the word to express deliberate speed in action.

- **Example (English + Hindi Equivalent):**

-  She hastened to submit the report before the deadline. (उसने समय सीमा से पहले रिपोर्ट जमा करने के लिए तेज़ी दिखाई।)
- **Grammar Breakdown:**
 - Subject: *She*
 - Verb (past tense): *hastened*
 - Infinitive phrase: *to submit the report*
 - Prepositional phrase: *before the deadline*

- **Common Collocations:**

- Hasten to help, hasten response, hasten death, hasten process

- **My Statement:**

- Your team hastened to respond in order to safeguard our compromised servers.
- To hasten someone's death, give them a sip of water in their last breaths.
- We need to hasten the process to avoid getting delayed again leading to missed opportunities.

- **My Notes:**

-  **Hasten vs. Hasty**

- **Hasten (Verb)**

- **Meaning:** To move or act quickly; to speed up a process.

- **Example:** We must hasten the negotiations to avoid delays.
-  **Usage:** Action-oriented.

■ **Hasty (Adjective)**

- **Meaning:** Done quickly without enough thought or care.
- **Example:** His hasty decision led to major losses.
-  **Usage:** Often negative, implying rashness or lack of planning.

2. Myriad (असंख्य) (Noun/Adjective) (MEER-ee-uhd) (Neutral)

- **Meaning (English):** A countless or extremely large number; innumerable.
- **Meaning (Hindi):** बहुत बड़ी संख्या; असंख्य।
- **Origin Flowchart & Etymology:**
 - Greek *myrias* ("ten thousand") → **Latin *myriadis*** → French *myriade* → **English**
- **Synonym + Antonym:**
 - **Synonyms:** Multitude, Plethora, Infinite
 - **Antonyms:** Scarcity, Few, Limited
- **Connotation:** Neutral to Positive (suggests abundance)
- **Pictorial Scenario:** A night sky filled with a myriad of stars.

- **Use in Non-Fiction (in 100 words):**

Modern technology presents a myriad of opportunities and risks. In data science, professionals deal with a myriad of variables daily. The digital world offers myriad platforms for learning, but also distracts with myriad notifications. Policymakers must address a myriad of concerns from different stakeholders. In academic writing, using "myriad" demonstrates both vocabulary strength and an understanding of scale. However, overuse should be avoided as it can reduce clarity.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  There are myriad reasons to support clean energy. (स्वच्छ ऊर्जा का समर्थन करने के असंख्य कारण हैं।)
-  There is a myriad of peoples. ("People" is already plural; better: "a myriad of people")

- **Word Hack of the Day (in 50 words):**

- Use "myriad" to replace "a lot of" or "many" for precision and elegance. As a noun or adjective, it adds richness to academic and creative writing. But ensure the context really supports a sense of overwhelming number or diversity.

- **Example (English + Hindi Equivalent):**

-  She explored a myriad of career options before choosing psychology. (उसने मनोविज्ञान चुनने से पहले असंख्य करियर विकल्पों की खोज की।)
- **Grammar Breakdown:**
 - Subject: *She*
 - Verb: *explored*
 - Object: *a myriad of career options*
 - Dependent clause: *before choosing psychology*

- **Common Collocations:**

- Myriad of problems, myriad options, myriad ways, myriad forms

- **My Statement:**

- **(NOUN)**
 - We are competing with a myriad of job applicants.
 - There are a myriad of planets in the universe, even beyond our solar system.
 - She had a myriad of career options but chose what she truly liked.
- **(ADJECTIVE)**
 - On this planet, we have myriad animal and plant species that remain undiscovered.
 - We gave her myriad opportunities to pass the test, but she still showed no improvement.

- There are myriad ways to solve the problem but the real problem is finding the optimal one.

- **My Notes:** [Leave as Placeholder]

3. Tepid (गुनगुना / बेरुखा) (Adjective) (TEH-pid) (Negative/Neutral)

- **Meaning (English):** Slightly warm; showing little enthusiasm or force.
- **Meaning (Hindi):** गुनगुना या उत्साहहीन।
- **Origin Flowchart & Etymology:**
 - Latin *tepidus* ("lukewarm") → **Middle English** → *tepid*
- **Synonym + Antonym:**
 - **Synonyms:** Lukewarm, Mild, Unenthusiastic
 - **Antonyms:** Boiling, Passionate, Intense
- **Connotation:** Mildly Negative (suggests weakness or lack of passion)
- **Pictorial Scenario:** A person sipping tepid coffee and frowning.

- **Use in Non-Fiction (in 100 words):**

Economic reforms often fail when they receive a tepid response from the public or stakeholders. A tepid market reaction to a product launch can signal lack of demand. In corporate communication, a tepid tone can undermine confidence, making even good ideas appear weak. Tepid leadership discourages innovation, while in politics, tepid support for policies often results in inconsistent implementation. Therefore, enthusiasm and clarity are essential to avoid a tepid impact.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  The audience gave a tepid applause after the performance. (प्रदर्शन के बाद दर्शकों ने बेरुखा तालियाँ दीं।)
-  The soup is tepid hot. (“Tepid” already implies mild heat; avoid redundancy)

- **Word Hack of the Day (in 50 words):**

- “Tepid” is a red flag word. Whether it’s support, performance, or attitude—tepid implies something is lacking. Use it to highlight insufficiency without being overtly negative. It’s a diplomatic way to signal poor quality or enthusiasm.

- **Example (English + Hindi Equivalent):**

-  Investors gave a tepid reaction to the company’s new strategy. (निवेशकों ने कंपनी की नई रणनीति पर बेरुखा प्रतिक्रिया दी।)
- **Grammar Breakdown:**
 - Subject: *Investors*
 - Verb: *gave*
 - Object: *a tepid reaction*
 - Prepositional phrase: *to the company’s new strategy*

- **Common Collocations:**

- Tepid response, tepid applause, tepid interest, tepid tea

- **My Statement:**

- The old customers gave a tepid response to the new update released by the company although new customers had no issue.
- She had a tepid interest in the field I am currently working in.
- The tea was tepid, so I left it after just three sips.

- **My Notes:** [Leave as Placeholder]

4. Consternation (घबराहट) (Noun) (kon-ster-NAY-shun) (Negative)

- **Meaning (English):** A feeling of anxiety, shock, or dismay, often at something unexpected.
- **Meaning (Hindi):** चिंता या घबराहट, विशेष रूप से किसी अप्रत्याशित चीज़ पर।
- **Origin Flowchart & Etymology:**
 - Latin *consternare* (“to confound, terrify”) → **French *consternation*** → English
- **Synonym + Antonym:**
 - **Synonyms:** Dismay, Panic, Alarm
 - **Antonyms:** Calm, Composure, Relief
- **Connotation:** Negative (suggests sudden, overwhelming shock)
- **Pictorial Scenario:** A student staring in consternation at a failed exam paper.

- **Use in Non-Fiction (in 100 words):**

Public policy failures often trigger consternation among citizens, especially when promises are unmet. In economics, sudden inflation or policy shifts can cause consternation in markets. In organizational psychology, leaders must mitigate consternation during mergers or layoffs by managing expectations. Consternation is not just fear—it's paralyzing surprise. Understanding and preparing for this emotional response is key in crisis management and change leadership.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  His sudden resignation caused consternation among the staff. (उनके अचानक इस्तीफे से स्टाफ में घबराहट फैल गई।)
-  I am consternationed today. (“Consternation” is a noun, not a verb)

- **Word Hack of the Day (in 50 words):**

- Use “consternation” when “shock” or “fear” isn’t enough. It blends confusion and panic—best reserved for high-stakes moments. Whether in media, corporate crises, or personal breakdowns, consternation signals that something has gone deeply wrong, often suddenly.

- **Example (English + Hindi Equivalent):**

-  The decision to cancel exams left students in utter consternation. (परीक्षा रद्द करने के निर्णय ने छात्रों को पूरी तरह घबराहट में डाल दिया।)
- **Grammar Breakdown:**
 - Subject: *The decision*
 - Verb: *left*
 - Object: *students*
 - Complement: *in utter consternation*

- **Common Collocations:**

- In consternation, cause consternation, filled with consternation

- **My Statement:**

- We were filled with consternation when the lockdown was imposed for several weeks.
- When gripped by consternation, we often fail to notice what’s happening around us and may even blame ourselves — even when it’s not our fault.
- Poor economic activity can cause consternation among new job seekers.

- **My Notes:** [Leave as Placeholder]

5. Radical (कट्टर / मूलभूत) (Adjective/Noun) (RAD-i-kuhl) (Neutral/Varies by context)

- **Meaning (English):** Thorough and fundamental; extreme in nature or effect; or someone who advocates for revolutionary change.
- **Meaning (Hindi):** मूलभूत या अत्यधिक बदलाव के पक्षधर।
- **Origin Flowchart & Etymology:**
 - Latin *radix* ("root") → Late Latin *radicalis* ("of or having roots") → English
- **Synonym + Antonym:**
 - **Synonyms:** Extreme, Revolutionary, Fundamental
 - **Antonyms:** Conservative, Moderate, Traditional
- **Connotation:** Can be Positive (innovation), Neutral (technical), or Negative (extremism)
- **Pictorial Scenario:** A protester holding a banner that says "Radical Change Now."

- **Use in Non-Fiction (in 100 words):**

Radical shifts in economic policy can either transform a nation or destabilize it. In mathematics, radicals denote root expressions, while in politics, radical ideologies demand deep restructuring. In startups, radical thinking leads to disruption. In climate science, only radical interventions can slow global warming. The word "radical" is

context-dependent—often celebrated in innovation but feared in governance. It's about depth, not recklessness.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  The new CEO introduced radical reforms. (नए सीईओ ने मूलभूत सुधार लागू किए।)
-  She is radicaled about this issue. (Incorrect verb form and structure)

- **Word Hack of the Day (in 50 words):**

- “Radical” doesn’t always mean extreme—it means starting from the root. Use it when superficial fixes won’t work. Radical thinking solves deep problems by addressing causes, not symptoms. But remember: being radical without clarity can be dangerous.

- **Example (English + Hindi Equivalent):**

-  They proposed a radical solution to the climate crisis. (उन्होंने जलवायु संकट के लिए एक कट्टर/मूलभूत समाधान प्रस्तावित किया।)
- **Grammar Breakdown:**
 - Subject: *They*
 - Verb: *proposed*
 - Object: *a radical solution*
 - Prepositional phrase: *to the climate crisis*

- **Common Collocations:**

- Radical change, radical idea, radical thinker, radical surgery

- **My Statement:**

- **(NOUN)**
 - She is a radical who fights for the planet against climate change.
 - He is a radical who advocates equal rights for every citizen.
 - We all are aware that he is a radical when it comes to his own religion.
- **(ADJECTIVE)**
 - We need to make radical changes in our strategy to avoid common pitfalls.
 - We need radical clarity on that issue.
 - It was a radical idea, but the management ignored it for months.
