Earmarked, Reckoning, Faction, Accord, Impunity

**1 Earmarked (निर्धारित / आरक्षित किया हुआ) (Verb – past / adjective) (ear-marked) (Formal)**

- **Meaning (English):** Set aside or designated for a specific purpose.
- **Meaning (Hindi):** किसी विशेष उद्देश्य के लिए निर्धारित या अलग किया हुआ।
- **Synonym + Antonym:**
  - **Synonyms:** allocated, designated, reserved
  - **Antonyms:** unassigned, unrestricted
- **Connotation:** Neutral (planned allocation)
- **Pictorial Scenario:** Funds being set aside in a budget for a specific project.

- **Use in Non-Fiction (100 words):**

Earmarking is a common practice in budgeting, governance, and project management. Resources such as funds, manpower, or materials are earmarked to ensure that they are used for specific purposes. This helps improve accountability and prevents misuse of resources. Governments often earmark funds for sectors like education, healthcare, and infrastructure. In organizational contexts, earmarking allows better planning and execution of projects. However, excessive earmarking may limit flexibility in resource

allocation. Therefore, balancing targeted allocation with adaptive planning is essential for efficient management and optimal utilization of resources.

- **Correct and Incorrect Usage**

- ✓ Funds were earmarked for education. (शिक्षा के लिए धन निर्धारित किया गया।)
- ✓ The budget earmarked resources for development. (बजट ने विकास के लिए संसाधन निर्धारित किए।)
- ✓ These seats are earmarked for special candidates. (ये सीटें विशेष उम्मीदवारों के लिए आरक्षित हैं।)
- ✗ He earmarked to the project. (✗ **Explanation:** "Earmarked" requires an **object**, not "to" directly.)

- **Word Hack of the Day (in 50 words):**

- Start earmarking your time, energy, and resources for specific goals instead of using them randomly. When everything has a clear purpose, you reduce waste and improve focus. Allocating intentionally ensures that important tasks receive attention, helping you stay organized, productive, and aligned with your long-term priorities.

- **Common Collocations**

- earmarked funds, earmarked budget, earmarked resources, earmarked for

- **My Statement:**

- **ADJECTIVE**

- The earmarked resources were used wisely throughout the project.
- All the funds earmarked by the government can only be utilized after passing an appropriation bill.
- The earmarked budget was foolproof evidence of well-defined development goals.

- **VERB**

- She earmarked her daily time to get the best out of her day.
- The scientists were earmarked for the project.
- The machine automatically identified all necessary targets ahead of time.

- **My Notes:** [Placeholder]

## 2 Reckoning (आकलन / हिसाब / परिणाम का समय) (Noun) (reck-on-ing) (Serious / Formal)

- **Meaning (English):** A time of judgment, calculation, or facing consequences.
- **Meaning (Hindi):** हिसाब-किताब या परिणाम का समय।
- **Synonym + Antonym:**
  - **Synonyms:** judgment, evaluation, consequence
  - **Antonyms:** ignorance, avoidance
- **Connotation:** Serious / sometimes negative
- **Pictorial Scenario:** A person reviewing accounts or facing consequences.

- **Use in Non-Fiction (100 words):**

Reckoning is often used to describe a moment when consequences must be faced or an evaluation must occur. In financial contexts, it refers to calculating accounts or balances. In broader social or political discourse, a reckoning may signify a period of accountability or reform following prolonged issues. Organizations may face a reckoning when mismanagement or inefficiencies come to light. Similarly, individuals encounter personal reckonings when reflecting on past decisions. The concept emphasizes responsibility and the inevitability of consequences. Recognizing the importance of reckoning helps ensure transparency, accountability, and corrective action in both personal and institutional settings.

- **Correct and Incorrect Usage**

- ✓ The company faced a financial reckoning. (कंपनी ने वित्तीय परिणामों का सामना किया।)
- ✓ A day of reckoning is near. (हिसाब का दिन पास है।)
- ✓ He did a quick reckoning of expenses. (उसने खर्चों का आकलन किया।)
- ✗ He reckoning the problem. (✗ **Explanation:** “Reckoning” is a **noun**, not a verb.)

- **Word Hack of the Day (in 50 words):**

- Schedule a regular reckoning for your actions—review what worked, what didn’t, and where you need improvement. Facing outcomes honestly helps you correct mistakes early, stay accountable, and make better decisions. A consistent reckoning habit turns reflection into growth and prevents small issues from becoming larger setbacks.

- **Common Collocations**

- day of reckoning, financial reckoning, final reckoning, moment of reckoning

- **My Statement:**

- The day of reckoning is near, and we must be proud of our preparation.
- He felt no fear at the moment of reckoning.
- It is a final reckoning, after which everything will never be the same.

- **My Notes:** [Placeholder]

### 3 Faction (गुट / दल) (Noun) (fac-tion) (Neutral / Political)

- **Meaning (English):** A small organized group within a larger group, often with differing views.
- **Meaning (Hindi):** किसी बड़े समूह के भीतर का गुट या दल।
- **Synonym + Antonym:**
  - **Synonyms:** group, clique, bloc
  - **Antonyms:** unity, whole
- **Connotation:** Neutral to slightly negative (division)
- **Pictorial Scenario:** Different groups within a political party arguing.

- **Use in Non-Fiction (100 words):**

Factions often emerge within larger organizations, political parties, or communities when individuals share common interests or ideologies that differ from the main group. While factions can encourage diversity of thought and debate, they may also lead to internal conflicts and fragmentation. In political systems, factions can influence decision-making and policy direction. Managing factions effectively requires strong leadership and open communication to ensure that differences do not disrupt overall unity. Understanding faction dynamics is essential for maintaining balance and cooperation within complex organizational structures.

- **Correct and Incorrect Usage**

- ✓ A faction within the party opposed the decision. (पार्टी के एक गुट ने निर्णय का विरोध किया।)
- ✓ The group split into several factions. (समूह कई गुटों में बंट गया।)
- ✓ Rival factions clashed during the protest. (प्रतिद्वंद्वी गुटों में टकराव हुआ।)
- ✗ He faction the group. (✗ **Explanation:** "Faction" is a **noun**, not a verb.)

- **Word Hack of the Day (in 50 words):**

- Be mindful of forming mental factions in your thinking—dividing ideas into rigid camps of right or wrong. Instead, stay open to multiple perspectives and evaluate them objectively. Reducing internal and external factional thinking helps improve decision-making, encourages collaboration, and prevents unnecessary conflict in both personal and professional environments.

- **Common Collocations**

- political faction, rival factions, factional conflict, party faction

- **My Statement:**

- The political faction decided to form a new party with a unique ideology.
- The rival factions wanted to support their ideas by eliminating beliefs that don't work in reality.
- A factional conflict emerged during the war, when uncertainty prevailed across the country.

- **My Notes:** [Placeholder]

#### 4 Accord (समझौता / सहमति) (Noun) (ac-cord) (Formal)

- **Meaning (English):** Agreement or harmony between parties.
- **Meaning (Hindi):** समझौता या सहमति।
- **Synonym + Antonym:**
  - **Synonyms:** agreement, treaty, harmony
  - **Antonyms:** conflict, disagreement
- **Connotation:** Positive (cooperation)
- **Pictorial Scenario:** Leaders signing a peace agreement.

- **Use in Non-Fiction (100 words):**

An accord represents a formal agreement between parties, often used in diplomatic, legal, or organizational contexts. Such agreements help resolve conflicts, establish cooperation, and define mutual responsibilities. Peace accords, trade accords, and international agreements are examples where structured negotiation leads to stability and collaboration. Reaching an accord requires compromise, dialogue, and mutual understanding. While accords promote harmony, their effectiveness depends on proper implementation and adherence by all parties involved. In governance and international relations, accords play a critical role in maintaining order and fostering long-term partnerships.

- **Correct and Incorrect Usage**

- ✓ The countries signed a peace accord. (देशों ने शांति समझौता किया।)
- ✓ They reached an accord after negotiations. (उन्होंने बातचीत के बाद सहमति बनाई।)
- ✓ The agreement was in accord with the policy. (समझौता नीति के अनुसार था।)
- ✗ He accord the proposal. (✗ **Explanation:** Missing structure; should be “accord with” or “accorded to.”)

- **Word Hack of the Day (in 50 words):**

- Strive to bring your actions and goals into accord—alignment creates clarity and consistency. When your decisions match your values, you avoid confusion and internal conflict. Regularly check whether your efforts are in accord with your long-term objectives, ensuring that your direction remains purposeful and well-coordinated.

- **Common Collocations**

- peace accord, reach an accord, in accord with, bilateral accord

- **My Statement:**

- The peace accord was seen as a prime step in building good relations and fostering harmony.
- We reached an accord after weeks of negotiations.
- The war will not end until the bilateral accord is accepted and comes into effect.

- **My Notes:** [Placeholder]

## 5 Impunity (दंडमुक्ति) (Noun) (im-pu-ni-ty) (Formal / Negative)

- **Meaning (English):** Freedom from punishment or consequences.
- **Meaning (Hindi):** दंड से मुक्त होना।
- **Synonym + Antonym:**
  - **Synonyms:** exemption, immunity
  - **Antonyms:** accountability, punishment
- **Connotation:** Negative
- **Pictorial Scenario:** A person committing wrongdoing without facing consequences.

- **Use in Non-Fiction (100 words):**

Impunity refers to the absence of punishment or accountability for wrongdoing, often leading to injustice and erosion of trust in institutions. In legal and political contexts, impunity allows individuals or groups to act without fear of consequences, undermining the rule of law. Addressing impunity is essential for ensuring fairness, transparency, and accountability in governance. Systems that tolerate impunity often face corruption, inefficiency, and public dissatisfaction. Strengthening legal frameworks and enforcing regulations are critical steps in preventing impunity. Ultimately, reducing impunity helps build a just society where actions are aligned with responsibility and consequences.

- **Correct and Incorrect Usage**

- ✓ He acted with impunity. (उसने दंड के भय के बिना कार्य किया।)
- ✓ Corruption continues with impunity. (भ्रष्टाचार बिना दंड के जारी है।)
- ✓ The criminals operated with impunity. (अपराधी दंडमुक्त होकर काम कर रहे थे।)
- ✗ He impunity the law. (✗ **Explanation:** "Impunity" is a **noun**, not a verb.)

- **Word Hack of the Day (in 50 words):**

- Avoid developing a sense of impunity in your habits—acting without accountability can lead to long-term setbacks. Hold yourself responsible for your actions, even when no one is watching. Building self-discipline ensures that you operate with integrity, maintain consistency, and prevent small lapses from turning into bigger problems.

- **Common Collocations**

- act with impunity, operate with impunity, culture of impunity, enjoy impunity

- **My Statement:**

- Acts done with impunity should never be tolerated again.
- The culture of impunity reflects poorly on the judicial system.
- One who enjoys impunity may eventually commit more serious crimes.

- **My Notes:** [Placeholder]
