• Use in Non-Fiction (in 100 words):

In legal and institutional frameworks, individuals are expected to abide by established rules and regulations. Social stability depends on collective compliance, even when personal preferences conflict with imposed norms. Non-fiction analyses of governance frequently emphasize that societies collapse not from lack of laws, but from the

unwillingness of people to abide by them. Abiding reflects discipline, patience, and long-term responsibility rather than short-term convenience.

- **Correct and Incorrect Usage:**

- ✗ Citizens must abide the law. (गलत प्रयोग)

- **Word Hack of the Day (in 50 words):**

In climatology and environmental studies, icicles often serve as indicators of freezing cycles and water seepage patterns. Their formation reflects temperature fluctuation rather than constant cold. In architecture, icicles signal poor insulation and drainage problems. Thus, beyond their visual presence, icicles provide insights into structural and environmental inefficiencies.

- **Correct and Incorrect Usage:**

- ✓ An icicle hung from the roof. (छत से एक हिम-शूल लटका हुआ था।)

- ❌ Ice was iced from the roof. (गलत प्रयोग)

- **Word Hack of the Day (in 50 words):**
