Fable, Pretence, Profusion, Apathetic, Discrepant

1. Fable (कहानी / कल्पित कथा) (Noun) (fay-buhl) (Neutral to Positive Tone)

- **Meaning (English):** A short story, typically with animals as characters, conveying a moral.
- **Meaning (Hindi):** नैतिक शिक्षा देने वाली छोटी कहानी, अक्सर जानवरों के पात्रों के साथ।
- **Origin Flowchart & Etymology:**
 - Latin *fabula* → "story, tale" → Old French *fable* → **English fable**
- **Synonym + Antonym:**
 - **Synonym:** Allegory, Parable, Tale
 - **Antonym:** Truth, Fact
- **Connotation:** Generally positive or instructional, sometimes neutral.
- **Pictorial Scenario:** A fox talking to a crow on a tree, teaching a lesson about flattery.

- **Use in Non-Fiction (100 words):**

In literature classes, fables are frequently used to teach values through storytelling. While originally designed for children, their simplicity often reveals deep human truths. Aesop's Fables, for instance, use animals to represent human flaws and decisions,

helping readers understand ethical dilemmas. These stories have stood the test of time because they blend imagination with instruction effectively.

- **Correct and Incorrect Usage:**

-  *The teacher told a fable about honesty.* (शिक्षक ने ईमानदारी की एक कहानी सुनाई।)
-  *He lived in a fable for five years.* (Incorrect context—fables are stories, not realities.)

- **Word-Based Hack of the Day (50 words):**

- Revisit a childhood fable and decode its hidden lesson—most fables are compressed life strategies wrapped in story form. Apply one moral actively in your life today. Whether it's patience, cleverness, or honesty, let the tale guide a decision. Ancient wisdom retold simply can still upgrade your modern mindset.

- **Example + Grammar Explanation:**

- *The fox in the fable tricked the crow.* (कहानी में लोमड़ी ने कौए को चालाकी से धोखा दिया।)
- **Grammar Breakdown:**
 - **Subject:** The fox (Noun)
 - **Prepositional Phrase:** in the fable (Modifies the noun "fox")
 - **Verb:** tricked (Past simple of "trick")
 - **Object:** the crow (Direct object)

- **Common Collocations:**

- Aesop's fable, Moral of the fable, Classic fable

- **My Statement:**

- The fable teaches us important values of life from a very young age. ***
- The fable teaches us important life values from a very young age.
- It is a classic fable about a crow and his hardship to fetch the water. ***
- It is a classic fable about a crow and his struggle to fetch water.
- Have you forgotten the fables we used to listen together as a kid? ***
- Have you forgotten the fables we used to listen to together when we were kids?

- **My Notes:**

-  **Why it's "listen to together" (not just "listen together"):**

- The verb **"listen"** in English is **intransitive**, but **when it's followed by a specific thing** (like a story, song, or person), it **requires a preposition—"to."**
-  **Basic Structure:**
 - listen (to + object)
 - You listen to something or someone.
-  **Now, add "together":**
 - "Together" is an adverb that tells how or with whom the action is done.
 - **So:** "We listened to the story together."
 -  **Correct because:**
 - "listened to" = the verb + preposition
 - "the story" = the object of listening
 - "together" = adverb showing the shared action
-  **Original Example Breakdown:**
 - "We used to listen to fables together."
 - We = subject
 - used to listen = past habit
 - to fables = prepositional phrase (what we listened to)
 - together = adverb (how/with whom we did it)
-  **Common Mistake:**
 - "We used to listen fables together." →  Incorrect (missing "to")
 - "We used to listen together fables." →  Incorrect word order
-  **Other Examples:**
 - Let's listen to music together.
 - They listened to the speaker together.
 - She listens to podcasts with her brother.

2. Pretence (ढोंग / बहाना) (Noun) (pri-ten(t)s) (Negative Tone)

- **Meaning (English):** An attempt to make something that is not the case appear true.
- **Meaning (Hindi):** ऐसा दिखावा या बहाना जो सच नहीं है।
- **Origin Flowchart & Etymology:**
 - Latin *praetendere* → "to pretend" → Middle English *pretens* → **Modern pretense**
- **Synonym + Antonym:**
 - **Synonym:** Deception, Facade, Sham
 - **Antonym:** Honesty, Sincerity
- **Connotation:** Negative
- **Pictorial Scenario:** A man wearing a happy mask while hiding tears.

- **Use in Non-Fiction (100 words):**

In psychology, pretence is often associated with defense mechanisms like denial or projection. People put up emotional pretences to shield themselves from rejection or pain. In politics, leaders may adopt a pretence of care to win votes. Recognizing pretence is key to understanding both personal and institutional manipulation.

- **Correct and Incorrect Usage:**

-  *He made a pretence of knowing the topic.* (उसने विषय जानने का ढोंग किया।)
-  *Pretence is necessary in good friendships.* (False—pretence harms authentic relationships.)

- **Word-Based Hack of the Day (50 words):**

- Drop the pretence. Notice where you're pretending—whether it's forced enthusiasm, false confidence, or hiding discomfort. Pretence drains energy and disconnects you from authenticity. Replace it with honest reflection. The more real you are, the more aligned your actions become with who you truly are. Truth simplifies decisions; pretence complicates them.

- **Example + Grammar Explanation:**

- *Her pretence of confidence fooled everyone.* (उसके आत्मविश्वास के ढोंग ने सभी को धोखा दिया।)
- **Grammar Breakdown:**
 - **Subject:** Her pretence (Noun phrase)
 - **Prepositional Phrase:** of confidence (Modifies “pretence”)
 - **Verb:** fooled (Past tense)
 - **Object:** everyone

- **Common Collocations:**

- Under the pretence of, A false pretence, Pretence of normalcy

- **My Statement:**

- He was living with a false pretence to please his customers. ***
- He was living under a false pretence to please his customers.
- She showed the pretence of normalcy even after getting layoffed from his current job. ***
- She maintained the pretence of normalcy even after being laid off from her job.
- He was living under the pretence of power which he never owned himself. ***
- He was living under the pretence of power that he never truly possessed.

- **My Notes:** [Leave as Placeholder]

3. Profusion (बहुलता / प्रचुरता) (Noun) (*proh-fyu-zhun*) (Positive or Neutral Tone)

- **Meaning (English):** An abundance or large quantity of something.
- **Meaning (Hindi):** किसी चीज़ की अत्यधिक मात्रा या प्रचुरता।
- **Origin Flowchart & Etymology:**
 - Latin *profusio* → “lavish outpouring” → Late Middle English *profusion*
- **Synonym + Antonym:**
 - **Synonym:** Abundance, Excess, Overflow
 - **Antonym:** Scarcity, Dearth
- **Connotation:** Positive or neutral depending on context
- **Pictorial Scenario:** A garden overflowing with flowers of all colors.

- **Use in Non-Fiction (100 words):**

Environmental studies often highlight the profusion of plastic waste across oceans and urban areas. While profusion is usually seen as positive (like a profusion of flowers), it can have negative implications when linked to overproduction, consumerism, or pollution. Recognizing profusion in both nature and behavior helps understand ecosystems and economic cycles.

- **Correct and Incorrect Usage:**

-  *The profusion of ideas in the discussion was impressive.* (चर्चा में विचारों की बहुलता प्रभावशाली थी।)
-  *He had a profusion of laziness.* (Incorrect—"laziness" doesn't fit idiomatically with "profusion.")

- **Word-Based Hack of the Day (50 words):**

- Harness profusion with purpose. A flood of ideas, tools, or opportunities means nothing without clarity. Don't drown in abundance—filter it. Curate what adds value, and let go of the rest. Profusion is powerful only when channeled. Be selective, not overwhelmed. Your growth depends on what you prioritize, not what you hoard.

- **Example + Grammar Explanation:**

- *There was a profusion of flowers in the valley.* (घाटी में फूलों की बहुलता थी।)
- **Grammar Breakdown:**
 - **Subject:** There
 - **Verb:** was (Past simple of "be")
 - **Object:** a profusion (Noun)
 - **Prepositional Phrase:** of flowers in the valley

- **Common Collocations:**

- Profusion of colors, Profusion of ideas, In great profusion

- **My Statement:**

- We are living in a world where we are exposed to the profusion of great ideas in a click of a button. ***
- We are living in a world where we are exposed to a profusion of great ideas at the click of a button.
- In this festival you will witness the profusion of colors all across the town and people come together to paint the town red. ***
- During this festival, you will witness a profusion of colors all across the town, as people come together to paint the town red.
- The internet archive contains a great profusion of materials from books to softwares. ***

- The internet archive contains a great profusion of resources, ranging from books to software.
- **My Notes:** [Leave as Placeholder]

4. Apathetic (उदासीन / निरुत्साही) (Adjective) (ap-uh-thet-ik) (Negative Tone)

- **Meaning (English):** Showing or feeling no interest, enthusiasm, or concern.
- **Meaning (Hindi):** जिसमें रुचि, उत्साह या चिंता की कमी हो।
- **Origin Flowchart & Etymology:**
 - Greek *a-* (without) + *pathos* (emotion) → **Apathetic** = “without feeling”
- **Synonym + Antonym:**
 - **Synonym:** Indifferent, Uninterested, Emotionless
 - **Antonym:** Passionate, Concerned
- **Connotation:** Negative
- **Pictorial Scenario:** A student yawning during a protest or an emergency drill.

- **Use in Non-Fiction (100 words):**

Voter turnout often reflects the apathetic attitude of the public toward politics. In civic studies, apathy is seen as a threat to democracy, as it prevents active participation in governance. Apathy can also stem from burnout or learned helplessness. Addressing apathetic behavior in schools and workplaces requires emotional re-engagement.

- **Correct and Incorrect Usage:**

-  *She remained apathetic despite the chaos around her.* (वह चारों ओर की अफरा-तफरी के बावजूद उदासीन रही।)
-  *He was apathetic about his wedding day.* (Contextually illogical unless expressing depression.)

- **Word-Based Hack of the Day (50 words):**

- Catch yourself when apathy creeps in—it's often a mask for fear, burnout, or disconnection. Instead of saying "I don't care," ask "Why don't I care anymore?" Reignite curiosity with small actions. Apathy fades when meaning returns. Energy flows where purpose grows—don't settle into silence when your voice still matters.

- **Example + Grammar Explanation:**

- *They were apathetic towards the election results.* (वे चुनाव परिणामों के प्रति उदासीन थे।)
- **Grammar Breakdown:**
 - **Subject:** They
 - **Verb:** were (Past tense of "be")
 - **Adjective Complement:** apathetic
 - **Prepositional Phrase:** towards the election results

- **Common Collocations:**

- Apathetic response, Apathetic attitude, Apathetic audience

- **My Statement:**

- I have seen apathetic responses from the students of this class. ***
- I have seen apathetic responses from students in this class.
- Her apathetic attitude hindered her bonding with his friends. ***
- Her apathetic attitude hindered her bonding with her friends.
- It is hard to deal with an apathetic audience.

- **My Notes:** [Leave as Placeholder]

5. Discrepant (विचलित / असंगत) (*Adjective*) (*dis-kreh-puhnt*) (*Negative Tone*)

- **Meaning (English):** Marked by discrepancy; inconsistent or in disagreement.
- **Meaning (Hindi):** जो मेल न खाता हो या असंगत हो।
- **Origin Flowchart & Etymology:**
 - Latin *discrepare* → “to sound differently” → Modern *discrepant*
- **Synonym + Antonym:**
 - **Synonym:** Inconsistent, Conflicting, Contradictory
 - **Antonym:** Consistent, Harmonious
- **Connotation:** Negative
- **Pictorial Scenario:** Two bar graphs showing opposite data for the same topic.

- **Use in Non-Fiction (100 words):**

In data science and research, discrepant results can indicate errors, anomalies, or biased sampling. Discrepant behavior in finance reports often leads to audits. In scientific experiments, discrepant findings may push for hypothesis revision or model improvements. Recognizing and resolving discrepancies is essential in high-stakes decision-making.

- **Correct and Incorrect Usage:**

-  *The report contained discrepant figures compared to the original data.* (रिपोर्ट में मूल आंकड़ों की तुलना में असंगत आंकड़े थे।)
-  *He is a discrepant person.* (Incorrect—"discrepant" usually describes data or facts, not people.)

- **Word-Based Hack of the Day (50 words):**

- Spot discrepant patterns in your actions versus your goals. If what you say doesn't match what you do, refine either the plan or the behavior. Discrepancy isn't failure—it's feedback. Let inconsistencies guide realignment. Consistency builds trust, internally and externally. Catch the cracks early, and you prevent future collapse.

- **Example + Grammar Explanation:**

- *There were several discrepant statements in the interview.* (साक्षात्कार में कई असंगत बयान थे।)
- **Grammar Breakdown:**
 - **Subject:** There
 - **Verb:** were (Plural verb)
 - **Adjective:** discrepant
 - **Object:** statements
 - **Prepositional Phrase:** in the interview

- **Common Collocations:**

- Discrepant results, Discrepant reports, Discrepant findings

- **My Statement:**

- The research does not contain discrepant statistics about performance. ***
- The research does not contain discrepant statistics regarding performance.
- We're afraid that some of the discrepant reports may get published online.
- There were discrepant findings in the same experiments conducted by two different teams. ***
- The same experiments conducted by two different teams yielded discrepant findings.

- **My Notes:** [Leave as Placeholder]
