Reinforces, Efficacy, Resilience, Subtle, Envy

## 1. Reinforces (मजबूत करता है / समर्थन करता है) (Verb) (*ree-in-for-siz*) (Neutral to Positive Tone)

- **Meaning (English):** To strengthen or support an idea, feeling, or structure.
- **Meaning (Hindi):** किसी विचार, भावना या संरचना को और मजबूत या समर्थन देना।
- **Origin Flowchart & Etymology:**
  - Latin "re-" (again) + "infortis" (to strengthen) → Old French "**reinforcer**" → Middle English "**reinforce**".
- **Synonym + Antonym:**
  - **Synonyms:** Strengthens, supports, bolsters
  - **Antonyms:** Weakens, undermines, diminishes
- **Connotation:** Neutral to positive, depending on context.
- **Pictorial Scenario:** A teacher praises a student's good behavior, reinforcing discipline in the class.

- **Use in Non-Fiction (100 words):**

Positive feedback in the workplace reinforces an employee's motivation. When supervisors acknowledge effort and progress, it creates a sense of value and purpose. Similarly, setting clear expectations reinforces accountability and performance standards. In education, reinforcement of concepts through practice ensures better retention and understanding. Reinforcement is also crucial in behavior psychology, where consistent positive or negative consequences shape future behavior patterns. Thus, whether in management, learning, or personal development, reinforcement mechanisms solidify desired outcomes.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  **Correct:** Her speech reinforces our confidence. (उसका भाषण हमारे आत्मविश्वास को मजबूत करता है।)
-  **Incorrect:** Her speech reinforce our confidence. (Verb form disagreement.)

- **Example (English + Hindi Equivalent) + Detailed Low-Level Grammar:**

- The evidence reinforces the theory. (सबूत उस सिद्धांत को और मजबूत करता है।)
- **Grammar Breakdown:**
  - *The evidence* (Subject – singular noun)
  - *reinforces* (Verb – third-person singular present)
  - *the theory* (Object – noun phrase)

- **Common Collocations:**

- Reinforces the idea, Reinforces the belief, Reinforces security

- **My Statement:**

- Her result reinforces her credibility among candidates.
- The statement in an article reinforces her belief that AI will take everyone's job.  
\*\*\*
- The statement in the article reinforces her belief that AI will take everyone's job.
- I would to reinforce her idea and provide funding to make it a reality. \*\*\*
- I would like to reinforce her idea and provide funding to make it a reality.

- **My Notes:** [Leave as Placeholder]

## 2. Efficacy (प्रभावशीलता) (Noun) (eff-i-ka-see) (Formal Tone)

- **Meaning (English):** The ability to produce the intended result or effect.
- **Meaning (Hindi):** किसी चीज़ के प्रभावी या सफल होने की क्षमता।
- **Origin Flowchart & Etymology:**
  - Latin "*efficacia*" (effectiveness) → Late Middle English "*efficacy*".
- **Synonym + Antonym:**
  - **Synonyms:** Effectiveness, potency, efficiency
  - **Antonyms:** Ineffectiveness, inefficacy
- **Connotation:** Strongly positive and formal
- **Pictorial Scenario:** A clinical trial proving the efficacy of a new vaccine.

- **Use in Non-Fiction (100 words):**

The efficacy of public health interventions is measured through data and observable outcomes. For example, a vaccine's efficacy is determined by how well it prevents disease in controlled settings. In education, the efficacy of a teaching method can be assessed by improved test scores or student engagement. Policy makers also consider the efficacy of laws and regulations by monitoring compliance and social impact. Thus, efficacy is not merely about implementation, but about measurable results.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  **Correct:** The efficacy of the drug has been proven. (दवा की प्रभावशीलता सिद्ध हो चुकी है।)
-  **Incorrect:** The drug is efficacy. (Wrong part of speech.)

- **Example (English + Hindi Equivalent) + Detailed Low-Level Grammar:**

- The efficacy of the medicine was tested in a lab. (दवा की प्रभावशीलता को प्रयोगशाला में परखा गया।)
- **Grammar Breakdown:**
  - *The efficacy* (Subject – noun phrase)
  - *of the medicine* (Prepositional phrase modifying "efficacy")
  - *was tested* (Passive verb phrase – past tense)
  - *in a lab* (Prepositional phrase – location)

- **Common Collocations:**

- High efficacy, Proven efficacy, Efficacy rate

- **My Statement:**

- The efficacy rate of the program is impeccable. \*\*\*
- The efficacy of the program is impeccable.
- The experiment has provided us high efficacy. \*\*\*
- The experiment has provided us with high efficacy.
- We were expecting a high efficacy for this test. \*\*\*
- We were expecting high efficacy in this test.

- **My Notes:**

- Use "in" (or "from") instead of "for" when linking "efficacy" to an event or process.

### 3. Resilience (लचीलापन / सहनशीलता) (Noun) (ri-zil-yens) (Positive Tone)

- **Meaning (English):** The capacity to recover quickly from difficulties or setbacks.
- **Meaning (Hindi):** कठिनाइयों से जल्दी उबरने की क्षमता।
- **Origin Flowchart & Etymology:**
  - Latin "*resilire*" (to rebound or spring back) → **Early 19th-century English** "*resilience*".
- **Synonym + Antonym:**
  - **Synonyms:** Toughness, durability, adaptability
  - **Antonyms:** Fragility, vulnerability
- **Connotation:** Strongly positive
- **Pictorial Scenario:** A tree bending in a storm but not breaking.

- **Use in Non-Fiction (100 words):**

In psychology, resilience is the trait that allows individuals to cope with trauma, stress, and adversity. It is a vital factor in mental health, influencing how people manage change and recover from loss. In business, organizational resilience determines how well a company can withstand market disruptions. In ecology, environmental resilience refers to an ecosystem's ability to recover from natural disasters or human impact. Whether in

personal, professional, or environmental contexts, resilience is a core trait of sustainability and long-term success.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  **Correct:** Resilience is key to surviving hard times. (मुश्किल समय में टिके रहने के लिए लचीलापन जरूरी है।)
-  **Incorrect:** Resilience is key to survive hard times. ("Surviving" is correct gerund here.)

- **Example (English + Hindi Equivalent) + Detailed Low-Level Grammar:**

- Her resilience inspired the whole team. (उसकी सहनशीलता ने पूरी टीम को प्रेरित किया।)
- **Grammar Breakdown:**
  - *Her resilience* (Subject – noun phrase)
  - *inspired* (Verb – past tense)
  - *the whole team* (Object – noun phrase)

- **Common Collocations:**

- Emotional resilience, Build resilience, Resilience to stress

- **My Statement:**

- An individual is expected to build resilience of a very early age. \*\*\*
- An individual is expected to build resilience from a very early age.
- An institution without resilience fall apart at the time of adversity. \*\*\*
- An institution without resilience falls apart in times of adversity.
- We need to appoint someone with high emotional resilience for this role. \*\*\*
- We need to appoint someone with strong emotional resilience for this role.

- **My Notes:** [Leave as Placeholder]

#### 4. Subtle (सूक्ष्म / महीन) (*Adjective*) (*suh-tl*) (*Neutral to Positive Tone*)

- **Meaning (English):** Delicate or precise in meaning; not obvious or easily noticeable.
- **Meaning (Hindi):** जो आसानी से समझ में न आए; सूक्ष्म या महीन अंतर।
- **Origin Flowchart & Etymology:**
  - Latin "*subtilis*" (fine, delicate) → **Old French "*sotil*"** → Middle English "*subtle*".
- **Synonym + Antonym:**
  - **Synonyms:** Delicate, nuanced, understated
  - **Antonyms:** Obvious, blunt, direct
- **Connotation:** Often positive, but can be neutral or cautious
- **Pictorial Scenario:** A faint fragrance spreading through the room unnoticed at first.

- **Use in Non-Fiction (100 words):**

Subtle communication often plays a crucial role in diplomacy and negotiations. A subtle shift in tone or expression can change the meaning of a conversation. In literature, subtle symbolism adds depth without being overt. Subtle marketing techniques influence consumer behavior without direct persuasion. In personal interactions, a subtle act of kindness can leave a lasting impression. The power of subtlety lies in its ability to influence without being aggressive or obvious, which often makes it more impactful.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  **Correct:** The artist used subtle shades of blue. (कलाकार ने नीले रंग की सूक्ष्म छायाओं का प्रयोग किया।)
-  **Incorrect:** The artist used a subtlety color. (Wrong word form.)

- **Example (English + Hindi Equivalent) + Detailed Low-Level Grammar:**

- There was a subtle change in his behavior. (उसके व्यवहार में एक सूक्ष्म परिवर्तन था।)
- **Grammar Breakdown:**
  - *There was* (Introductory phrase – simple past)
  - *a subtle change* (Subject complement – article + adjective + noun)
  - *in his behavior* (Prepositional phrase – modifies “change”)

- **Common Collocations:**

- Subtle difference, Subtle hint, Subtle change

- **My Statement:**

- There is a subtle difference being good and actually being good. \*\*\*
- There is a subtle difference between appearing good and actually being good.
- I have seen subtle change in my voice after training for a year. \*\*\*
- I have seen a subtle change in my voice after training for a year.
- Life only gives subtle hints, we need to identify its intent and make suitable changes in our life. \*\*\*
- Life only gives subtle hints; we need to identify its intent and make suitable changes in our life.

- **My Notes:** [Leave as Placeholder]

## 5. Envy (ईर्ष्या) (Noun / Verb) (en-vee) (Negative Tone)

- **Meaning (English):** A feeling of discontent or resentment caused by someone else's possessions, qualities, or success.
- **Meaning (Hindi):** दूसरों की सफलता या वस्तुओं को देखकर होने वाली जलन या ईर्ष्या।
- **Origin Flowchart & Etymology:**
  - Latin "*invidia*" (envy) → Old French "*envie*" → Middle English "*envy*".
- **Synonym + Antonym:**
  - **Synonyms:** Jealousy, resentment, covetousness
  - **Antonyms:** Contentment, admiration
- **Connotation:** Strongly negative
- **Pictorial Scenario:** A person looking unhappily at their friend's new luxury car.

- **Use in Non-Fiction (100 words):**

Envy, often confused with jealousy, is a common human emotion that arises when one lacks what another possesses. In psychology, envy is viewed as a destructive emotion that can lead to low self-worth and toxic behavior. Social media intensifies envy as people constantly compare themselves with idealized online lives. Unlike admiration, which can inspire, envy often breeds bitterness. Understanding and managing envy is

key to emotional intelligence and self-growth. Turning envy into motivation can transform a negative impulse into a productive force.

- **Correct and Incorrect Usage (English + Hindi Equivalent):**

-  **Correct:** He was filled with envy. (वह ईर्ष्या से भरा हुआ था।)
-  **Incorrect:** He was envy. ("Envy" is a noun; not a state of being without a verb or article.)

- **Example (English + Hindi Equivalent) + Detailed Low-Level Grammar:**

- She envied her friend's success. (उसने अपनी दोस्त की सफलता से ईर्ष्या की।)
- **Grammar Breakdown:**
  - *She* (Subject – pronoun)
  - *envied* (Verb – past tense of "envy")
  - *her friend's success* (Object – possessive noun phrase)

- **Common Collocations:**

- Filled with envy, Green with envy, Cause envy

- **My Statement:**

- **(NOUN)**
  - You need to take control on your envy and accept what you have. \*\*\*
  - You need to take control of your envy and accept what you have.
  - Envy is not a good sign for a person. \*\*\*
  - Envy is not a good trait in someone.
  - How can you have such envy for others. \*\*\*
  - How can you have such envy toward others?
- **(VERB)**
  - She envied her friend for scoring a good score. \*\*\*
  - She envied her friend for scoring well.
  - It is obvious that, she must be envying by looking at my success. \*\*\*
  - It is obvious that she must be envying me by looking at my success.
  - A person may envy by looking at his friend possessions. \*\*\*

- A person may envy his friend's possessions.

- **My Notes:**

- **V1 to V5 (Envy)**

- V1 (base form): envy
    - V2 (past simple): envied
    - V3 (past participle): envied
    - V4 (present participle): envying
    - V5 (s/es form for singular subjects): envies
