Languid, Canvass, Saponify, Leer, Stereotyped

1 Languid (सुस्त / शिथिल) (Adjective) (lan-guid) (Negative/Neutral)

- **Meaning (English):** Lacking energy; slow, relaxed, or weak.
- **Meaning (Hindi):** ऊर्जा की कमी से सुस्त या धीमा।
- **Synonym + Antonym:**
 - **Synonym:** Sluggish, Listless
 - **Antonym:** Energetic, Vigorous
- **Connotation:** Slightly Negative (can be neutral in calm contexts)
- **Pictorial Scenario:** A person lying lazily on a couch, moving slowly due to fatigue.

- **Use in Non-Fiction (in 100 words):**

A languid approach in professional environments can significantly impact productivity and outcomes. When individuals lack energy or motivation, their performance often declines, leading to inefficiencies and missed deadlines. However, languid behavior is not always negative; in certain contexts, such as relaxation or recovery, it may indicate a necessary pause. Understanding the difference between restorative rest and habitual sluggishness is crucial. Organizations often encourage active engagement and time management to counteract languid tendencies. By maintaining a balance between rest

and productivity, individuals can ensure sustained performance without experiencing burnout or prolonged inactivity.

- **Correct and Incorrect Usage:**

- ✓ He felt languid after working long hours. (लंबे समय तक काम करने के बाद वह सुस्त महसूस कर रहा था।)
- ✓ The afternoon heat made everyone languid. (दोपहर की गर्मी ने सभी को सुस्त बना दिया।)
- ✓ Her languid movements showed exhaustion. (उसकी धीमी गतिविधियाँ थकान दर्शा रही थीं।)
- ✗ The machine is languid running fast. (✗ Incorrect: contradictory and improper structure.)

- **Word Hack of the Day (in 50 words):**

- Recognize when you're becoming languid—not all slowness is rest. If it stems from fatigue, recharge; if from procrastination, act immediately. Build momentum with small actions. A languid state can quietly drain productivity. Stay aware, restore energy when needed, and shift into purposeful movement to maintain consistent progress.

- **Common Collocations:**

- Languid pace, languid movement, feel languid

- **My Statement:**

- He managed to complete his task at a languid pace by staying late in the office.
- The overall work won't finish with such languid movement.
- He felt languid in the third segment of the day.

- **My Notes:** [Leave as Placeholder]

2 Canvass (राय लेना / समर्थन जुटाना) (Verb) (can-vass) (Neutral/Formal)

- **Meaning (English):** To seek opinions, votes, or support from people.
- **Meaning (Hindi):** लोगों से राय या समर्थन लेना।
- **Synonym + Antonym:**
 - **Synonym:** Survey, Solicit
 - **Antonym:** Ignore, Overlook
- **Connotation:** Neutral
- **Pictorial Scenario:** A person going door-to-door asking people for opinions or votes.

- **Use in Non-Fiction (in 100 words):**

Canvassing is a common practice in political, social, and business environments where gathering opinions or support is essential. Political candidates often canvass communities to understand public concerns and gain voter trust. Similarly, businesses canvass customers to collect feedback and improve their products or services. Effective canvassing requires communication skills, empathy, and strategic questioning. It helps organizations make informed decisions based on real-world insights. In modern contexts, digital platforms have transformed canvassing into surveys and online feedback mechanisms, expanding its reach and efficiency. Proper canvassing ensures that decisions are aligned with the needs and expectations of the target audience.

- **Correct and Incorrect Usage:**

- ✓ They canvassed the neighborhood for votes. (उन्होंने वोट के लिए मोहल्ले में लोगों से संपर्क किया।)
- ✓ The company canvassed opinions from its customers. (कंपनी ने ग्राहकों से राय ली।)
- ✓ She canvassed support for her campaign. (उसने अपने अभियान के लिए समर्थन जुटाया।)
- ✗ He canvassed to the office early. (✗ Incorrect: "Canvass" does not indicate movement.)

- **Word Hack of the Day (in 50 words):**

- Before making decisions, canvass opinions from people who matter. Gathering perspectives reduces blind spots and improves outcomes. Don't rely solely on assumptions—actively seek feedback. A quick round of questions can save time and prevent mistakes. Smart individuals canvass wisely, then act decisively based on informed insights.

- **Common Collocations:**

- Canvass support, canvass opinions, canvass voters

- **My Statement:**

- The politician canvasses votes from voters in the hope of bringing prosperity.
- She canvasses support from senior management to start working on her new plan.
- You need to canvass opinions from people with different perspectives to identify any hidden blind spots.

- **My Notes:** [Leave as Placeholder]

3 Saponify (साबुन बनाना) (Verb) (sa-pon-i-fy) (Technical/Neutral)

- **Meaning (English):** To convert fats or oils into soap through a chemical reaction.
- **Meaning (Hindi):** वसा या तेल को रासायनिक प्रक्रिया से साबुन में बदलना।
- **Synonym + Antonym:**
 - **Synonym:** Convert, Process
 - **Antonym:** Decompose (contextual)
- **Connotation:** Neutral (Technical)
- **Pictorial Scenario:** A laboratory setup where oils are being chemically converted into soap.

- **Use in Non-Fiction (in 100 words):**

Saponification is a fundamental chemical process widely used in the production of soap and detergents. It involves the reaction of fats or oils with an alkali, resulting in the formation of soap and glycerol. This process has both industrial and domestic applications, especially in sustainable and handmade soap production. Understanding how to saponify materials allows manufacturers to control the quality, texture, and cleansing properties of the final product. In chemistry education, saponification serves as an important example of organic reactions. Its relevance extends to environmental sustainability, as natural soaps are often biodegradable and less harmful compared to synthetic alternatives.

- **Correct and Incorrect Usage:**

- ✓ Oils can be saponified using an alkali. (तेलों को क्षार से साबुन में बदला जा सकता है।)
- ✓ The process helps saponify natural fats. (यह प्रक्रिया प्राकृतिक वसा को साबुन में बदलती है।)
- ✓ They saponified the mixture in the lab. (उन्होंने मिश्रण को प्रयोगशाला में साबुन में बदला।)
- ✗ He saponified to the market quickly. (✗ Incorrect: Not related to movement.)

- **Word Hack of the Day (in 50 words):**

- Think of saponify as transforming raw inputs into something useful. Apply this mindset to your habits—convert unproductive time into valuable output. Small, consistent changes can turn inefficiencies into strengths. Just like chemistry refines materials, refine your routines to create results that are cleaner, more effective, and sustainable.

- **Common Collocations:**

- Saponify oils, saponify fats, saponification process

- **My Statement:**

- The worker saponifies fats and oils to produce the desired soap.
- Where did you learn to saponify raw materials into industry grade soaps?
- We can help you saponify oils into soap with a small investment.

- **My Notes:** [Leave as Placeholder]

4 Leer (घूरना / अशिष्ट दृष्टि) (Verb/Noun) (leer) (Negative)

- **Meaning (English):** To look at someone in an unpleasant or suggestive way.
- **Meaning (Hindi):** अशिष्ट या गलत तरीके से घूरना।
- **Synonym + Antonym:**
 - **Synonym:** Gawk, Stare
 - **Antonym:** Respect, Ignore
- **Connotation:** Negative
- **Pictorial Scenario:** A person giving an uncomfortable, suggestive look to someone.

- **Use in Non-Fiction (in 100 words):**

Leering behavior is widely considered inappropriate and disrespectful in social and professional environments. It often conveys discomfort or violation of personal boundaries, making others feel unsafe. Organizations emphasize workplace ethics and conduct policies to prevent such behavior and promote respectful interactions. In public spaces, leering can be perceived as harassment and may have legal consequences. Addressing such conduct requires awareness, education, and strict enforcement of behavioral standards. Encouraging respectful communication and maintaining personal boundaries are essential to creating inclusive environments where individuals feel safe and valued without fear of inappropriate attention or judgment.

- **Correct and Incorrect Usage:**

- ✓ He leered at her inappropriately. (उसने उसे गलत तरीके से घूरा।)
- ✓ The man gave a disturbing leer. (उसने एक असहज दृष्टि डाली।)
- ✓ Avoid leering at people in public places. (सार्वजनिक स्थानों पर घूरने से बचें।)
- ✗ He leer to the office daily. ✗ Incorrect: "Leer" does not indicate movement.)

- **Word Hack of the Day (in 50 words):**

- Be mindful of how your gaze and expressions are perceived—avoid any form of leer. Respectful presence builds trust, while inappropriate attention damages it instantly. Control non-verbal cues as carefully as your words. Professionalism isn't just spoken; it's seen in how you observe and interact with others.

- **Common Collocations:**

- Leer at someone, disturbing leer, inappropriate leer

- **My Statement:**

- **NOUN**

- A leer is often interpreted as inappropriate, even when you know little about a person.
- The person's leer has been intimidating me for hours.
- I had to endure the disturbing leer of a person while I was traveling by bus.

- **VERB**

- You should not leer at someone in public places.
- He was leering at me until I left the place.
- He was not supposed to leer at the suspect like this; it may have raised suspicion about us.

- **My Notes:** [Leave as Placeholder]

5 Stereotyped (रुढ़िबद्ध / तयशुदा धारणा वाला) (Adjective) (ste-re-o-typed) (Negative/Neutral)

- **Meaning (English):** Having fixed, oversimplified ideas or assumptions about something.
- **Meaning (Hindi):** तयशुदा और सामान्यीकृत धारणा पर आधारित।
- **Synonym + Antonym:**
 - **Synonym:** Generalized, Preconceived
 - **Antonym:** Open-minded, Individualized
- **Connotation:** Negative
- **Pictorial Scenario:** A person judging others based on fixed assumptions without knowing them personally.

- **Use in Non-Fiction (in 100 words):**

Stereotyped thinking often leads to biased judgments and unfair treatment of individuals or groups. In social and professional contexts, such assumptions can limit opportunities and hinder diversity. Organizations increasingly focus on promoting inclusivity by challenging stereotyped beliefs and encouraging open-minded perspectives. Education and awareness play a key role in breaking these patterns, allowing individuals to evaluate situations based on facts rather than assumptions. In media and communication, stereotyped portrayals can reinforce negative perceptions, making it

essential to present balanced and accurate representations. Overcoming stereotyped thinking fosters fairness, innovation, and better interpersonal understanding.

- **Correct and Incorrect Usage:**

- ✓ His stereotyped thinking limited his perspective. (उसकी रुढ़िबद्ध सोच ने उसके दृष्टिकोण को सीमित किया।)
- ✓ The film avoided stereotyped characters. (फिल्म ने रुढ़िबद्ध पात्रों से बचा।)
- ✓ We should challenge stereotyped beliefs. (हमें तयशुदा धारणाओं को चुनौती देनी चाहिए।)
- ✗ The chair is stereotyped and broken. (✗ Incorrect: Not used for objects.)

- **Word Hack of the Day (in 50 words):**

- Challenge stereotyped thinking by questioning your assumptions regularly. Don't rely on fixed patterns or generalizations—seek individual understanding. Every situation deserves fresh evaluation. Breaking stereotypes improves judgment, decision-making, and relationships. Train your mind to think independently rather than defaulting to predefined beliefs or biased shortcuts.

- **Common Collocations:**

- Stereotyped thinking, stereotyped beliefs, stereotyped roles

- **My Statement:**

- I didn't like her because of her stereotyped thinking.
- The new movie has many stereotyped roles to cater to families.
- The villagers have stereotyped beliefs around the menstrual cycle of females.

- **My Notes:** [Leave as Placeholder]
